

Spuhr to Supply Grenade Launcher Sighting Mounts to the Danish Ministry of Defence

Prague (September 11, 2026) — Colt CZ Group SE announces that the Danish Ministry of Defence Acquisition and Logistics Organisation (DALO) has selected the Grenade Launcher Sight Mount (GLSM) developed by Spuhr i Dalby AB (“Spuhr”), a subsidiary of Colt CZ Group, as a new sighting solution for grenade launchers used by Danish Armed Forces. Deliveries are expected to begin in early 2027, in step with Denmark's newly acquired grenade launchers.

The new GLSM solution is designed to increase the accuracy and operational effectiveness of grenade launchers while providing greater flexibility. The sighting solution can be mounted on several types of grenade launchers and adjusted for different types of ammunition, allowing it to be adapted to both current and future weapon and ammunition combinations.

By introducing a unified and more modern sighting solution, the Danish Armed Forces will also be able to reduce the need for different types of dedicated equipment and streamline soldier training. The new GLSM will replace several older sighting systems currently in use.

“The new sights give us a completely different kind of flexibility in terms of ensuring the best possible accuracy with grenade launchers. This will reduce the need for special equipment across the various grenade launchers and ammunition types that we have in the Armed Forces,” said **Colonel Thomas Øgendahl Knudsen, Head of the Land Division at the Danish Ministry of Defence Acquisition and Logistics Organisation.**

“We are very proud that the Danish Armed Forces have selected Spuhr’s Grenade Launcher Sight Mount. The GLSM was developed around the requirements of professional users and designed to provide a flexible solution across different weapons and ammunition configurations. This selection is an important recognition of Spuhr’s engineering expertise, and we are pleased to support the Danish Armed Forces with a solution that meets both current and future operational needs,” said **Ulf Nilsson, CEO of Spuhr.**

The new sighting systems are expected to be delivered in early 2027 and will be used with the new grenade launchers, which were acquired by the Danish Armed Forces in 2025.

About Spuhr

Spuhr i Dalby AB is a Swedish manufacturer of advanced optical mounting solutions for firearms, headquartered in Löddeköpinge, Sweden. The company’s portfolio consists of optical mounts, accessories, and upgrade kits for firearms, making it highly complementary to the Group’s core business. Spuhr’s products are used by many military and law enforcement

units around the world, including the Swedish, Dutch, and Danish Armed Forces, German Police, and Portuguese Navy. Spuhr has been part of Colt CZ Group since 2024.

About Colt CZ Group SE

Colt CZ Group (Colt CZ) is one of the world's leading vertically integrated manufacturers of firearms, ammunition, and energetics, serving military and law enforcement as well as commercial markets. The Group markets and sells its products mainly under the Colt, CZ (Česká zbrojovka), Colt Canada, Colt Optics, Dan Wesson, Sellier & Bellot, Spuhr, swissAA, and 4M Tactical brands. The Group is also active in the production of energetic nitrocellulose through Synthesia Nitrocellulose.

Colt CZ Group is headquartered in the Czech Republic and employs more than 4,500 people across 13 production facilities in the Czech Republic, the United States, Canada, Sweden, Switzerland, and Hungary. The Group has been listed on the Prague Stock Exchange since 2020 and completed its dual listing on Euronext Amsterdam in April 2026. Its largest shareholder is Česká zbrojovka Partners SE.
